

ONC-305-301

GitHub Upload Guide

How to publish and present this portfolio

Document	GitHub Upload Guide	Study	ONC-305-301
Version	1.0	Status	Final simulated package
Data cut-off	2026-01-31	Database lock	2026-02-15
Author	Luke Johnston	Classification	Portfolio demonstration
Purpose	Biostatistics/statistical-programming portfolio	Data	100% simulated; no patient data

Important: this is a simulated portfolio package designed to demonstrate biostatistics, statistical programming, reproducibility, and regulatory-document writing. It is not a real clinical trial and is not clinical evidence.

Recommended repository name

- phase3-oncology-statistical-submission-portfolio
- oncology-biostatistics-submission-portfolio
- clinical-trial-stats-programming-portfolio

Command-line upload

Step	Command
1	<code>cd oncology_stat_submission_portfolio</code>
2	<code>git init</code>
3	<code>git add .</code>
4	<code>git commit -m "Initial Phase III oncology statistical submission portfolio"</code>
5	<code>git branch -M main</code>
6	<code>git remote add origin https://github.com/YOUR_USERNAME/phase3-oncology-statistical-submission-portfolio.git</code>
7	<code>git push -u origin main</code>

Topics to add

- biostatistics, clinical-trials, oncology, survival-analysis, adam, cdisc, tlf, statistical-programming, pharma, python, sas, r, kaplan-meier, cox-regression

What to pin and mention

- Pin the repo on your GitHub profile.
- Create a release named v1.0-professional-portfolio.
- Show the Recruiter Portfolio Summary PDF in interviews.
- Do not overclaim: all data are simulated, the package is not a regulatory submission, and SAS templates are templates unless executed locally.
